Here Success is not a matter of chance

From the Principal's Desk

Hello Everyone! Glad to meet you all through this Newsletter!

Six months of the school year has been successfully completed.

Six months of chatter of eager minds on the corridors, shouts of excitement of athletes, sound of melodious songs and vibrations of dialogue and debate by the teachers on topics that mattered!

In a complex world, the only thing that is constant is the change!

We have been consciously bringing about changes in the way the school functions, so that the change benefits the students and the teachers. We continue to be relentless in increasing the capability of our students as learners and helping students to achieve personal excellence. That will never change!

We have had new experienced teachers joining our force! We have included story telling as an activity for the lower classes to improve their creativity and spoken language. We are also having an activity in the school assembly called "Ignite a Thought", where students of the school are given the opportunity to speak on a topic of their choice which has relevance to a student's life, for about two minutes. We have also brought about the concept of "Munchy Mondays" and "Fruitful Fridays" through which we want the students to know about healthy foods and also practice them in their daily life.

In addition, to develop the habit of punctuality and regularity we have conceptualized the "Perfect Attendance" and "Class on Time" initiatives, whereby the class which has had perfect attendance through the month, gets rewarded. Hope the steps that we have taken this year help our students' progress in the right direction.

Let us nurture our budding talents to be bold and brave and let them embrace all the learning opportunities bestowed on them with confidence.

Wishing you all a safe and joyous Diwali!

With Regards,
Ms. Usha Ravi
Principal
