FROM THE PRINCIPAL'S DESK

Education creates new wants as well as the ability to satisfy them. In the ever changing dynamics of a transformational society, education has to adapt to and adopt new practices to fulfil the objective of preparing students for life. We at Regency are committed to fostering a culture of learning and skill development. Thus we are constantly looking out for ways to enhance students capabilities in every sphere. On the occasion of our bi centennial year, we proudly showcase our achievements in various spheres through the medium of this chronicle.

It is heartening to note that we have successfully conducted a myriad of activities in this session. Our Council exam results are consistently good with an increase in the aggregate percentage, subject wise class average and number of distinctions scored. Our students regularly participate and achieve positions in academic and non academic competitions outside the school. The emphasis on sports and physical development is evident through the coaching, yoga and the launch of the Scouts and Guides programme. The colourful co curricular activities, programmes, celebrations and festivals add joy to school life. The success of the second edition of the inter School robotics competition is a testament to our commitment to a tech enabled future spearheaded by Robotics and AI. Various workshops and training programmes help our faculties to hone their skills, enhance their motivation and inspire them to deliver their best efforts for students welfare. Indeed the pages are insufficient to record the achievements of the institution and its stakeholders. The greatest testimony of our achievements is revealed in being ranked 4th among ICSE schools of North Bengaluru and 18th in all Bengaluru top schools, in the prestigious Times of India (TOI) school survey, based on varied criteria including infrastructure, academic, sports, CCA as well as parents, students and public perceptions.

I congratulate the entire team for the successful completion of the academic session of 2024-2025 and the addition of many more colourful feathers to the Regency cap. My best wishes to the editorial team for compiling and presenting the achievements and efforts in such a delightful way. May we continue to explore new horizons and soar high in the vast firmament of education.

Off the Beaten Path: Highlights from Our School Trip (01 Oct 2024 to 05 Oct2024)

-Yashas & Kena Prasad (10A)

Our recent school trip to Dandeli and Goa was one of the most memorable experiences of my life. It was a three-day adventure filled trip with fun, laughter, and excitement. In Dandeli, the thrill of river rafting was unmatched — the rush of the water and the sense of adventure made it both scary and exhilarating. The trekking trail that seemed to emerge out from the rising sun and the picturesque mountain scenery, left us flabbergasted.

Back at the resort, the fun continued. We spent hours playing games, sharing stories, and enjoying the swimming pool. The fire camp at night was magical — we danced, sang, and laughed under the stars. The time we spent with each other in the rooms, sharing our stories, made us connect better with those with whom we never spoke much. The food throughout the trip was amazing, from delicious local dishes to our favorite snacks.

Goa was equally incredible, with its stunning beaches and marvelous historical sites. Visiting places like the old churches and forts was so intriguing — the stories and architecture left us in awe. But the journey itself was something truly different that I would cherish it for years to come — the night rides were filled with music, jokes, and endless conversations. Every moment spent with friends and teachers made this trip truly unforgettable and it gets us thinking—“Wish we could turn back time to the good old days”!
